

VAL-CHR-D00225DM

PRODUCT OVERVIEW

The VALVUR Mid-Back Chair is designed for comfort and durability. Built with a hardened steel base, you won't have to worry about stability in tough work conditions.

The chair can hold an impressive weight of 160 kg and is a strong chair that is built to endure the toughest work environments. Places like airports, hospitals and control rooms require around-the-clock service.

The VALVUR Mid-Back Chair allows for continued comfort and support in a multi-shift workplace.
